About Me

IT Engineering student and full-stack developer with hands-on training in React, Laravel, PHP, MySQL, JavaScript, and responsive interface development. Experienced in building role-based web platforms, REST APIs, booking systems, ecommerce tools, and mobile-ready applications. Brings a practical foundation in teamwork, data accuracy, problem solving, and user-focused development.

WORK EXPERIENCE

Completed July 2026
KRU IT Solution & ETEC Center

Frontend Development Intern

- Completed practical frontend development work while demonstrating teamwork, dedication, and professional growth.
- Applied responsive UI development skills using modern frontend technologies and project-based workflows.

2024–2025
MoEYS EdTech

Data Entry Volunteer

- Managed high-volume and confidential records using Microsoft Excel and database tools.
- Maintained data accuracy and supported an efficient information workflow with team members.
- Received recognition for contributing to the MoEYS EdTech application project.

2025
ETEC Center

Frontend Developer Trainee

- Built responsive web applications using React.js, Tailwind CSS, Bootstrap, and modern JavaScript.
- Practised component-based development, responsive design, debugging, and project delivery.
